PROJECTS

MyHomeBakery | Recipe App

UX/UI Designer - CareerFoundry Project | Fall 2024

- **Problem:** Identified critical usability gaps in existing recipe platforms, including unclear instructions, missing features, and inefficient navigation.
- **Process:** Conducted competitive analysis, user research, interviews, persona creation, user flows, and MVP definition to guide data-driven design decisions.
- **Solution:** Designed a responsive recipe app with streamlined search, organized planning tools, and intuitive step-by-step guidance to enhance cooking efficiency.

Activity Connect | Activity Finder App

UX/UI Designer - CareerFoundry Project | Spring 2025

- **Problem:** Lack of a centralized, easy-to-use platform made it difficult for parents and individuals to discover, compare, and register for local classes and activities.
- **Process:** Conducted competitor analysis, user interviews, personas, flows, and wireframes to define user needs and design an intuitive mobile experience.
- **Solution:** Delivered a streamlined iOS/Android app that simplifies class discovery, comparison, scheduling, and registration for both users and activity providers.
